SMART HOME AUTOMATION

Shutters and curtains

Wired, wireless and smart control of any type of rolling shutters and motorized curtains

Lighting

Wired, wireless and smart control of any type of lighting fixture

Awnings and Pergola

Lighting and motors control with one remote control

Gates and Doors

Complete range of devices for the control of gates, garage doors and electric locks

Garden lights

Outdoor lighting control by smart scenarios and wireless devices

Control interface for
dimmable LED drivers
DALI and 0/1-10V

Smart WiFi
motion and
light sensor

Phase-cut dimmer for
230V LED lights

Radio RF
motion and
light sensor

Motorized
shutters
and curtains
control

Control for 24V LED
Dimming, CCT,
RGB and RGBW

Trigger of
Scenarios
created by App

Voice smart assistants
for the control of the
OneSmart devices by
vocal commands

Multi-channel remote control
for lights, curtains and motorized
shutters and for the activation of
scenarios programmed by the
App OneSmart

Remote control by Smartphone
through the WiFi connection with
the local router

INTEGRATED SYSTEM

NEXTA
TECH

Wireless and wired

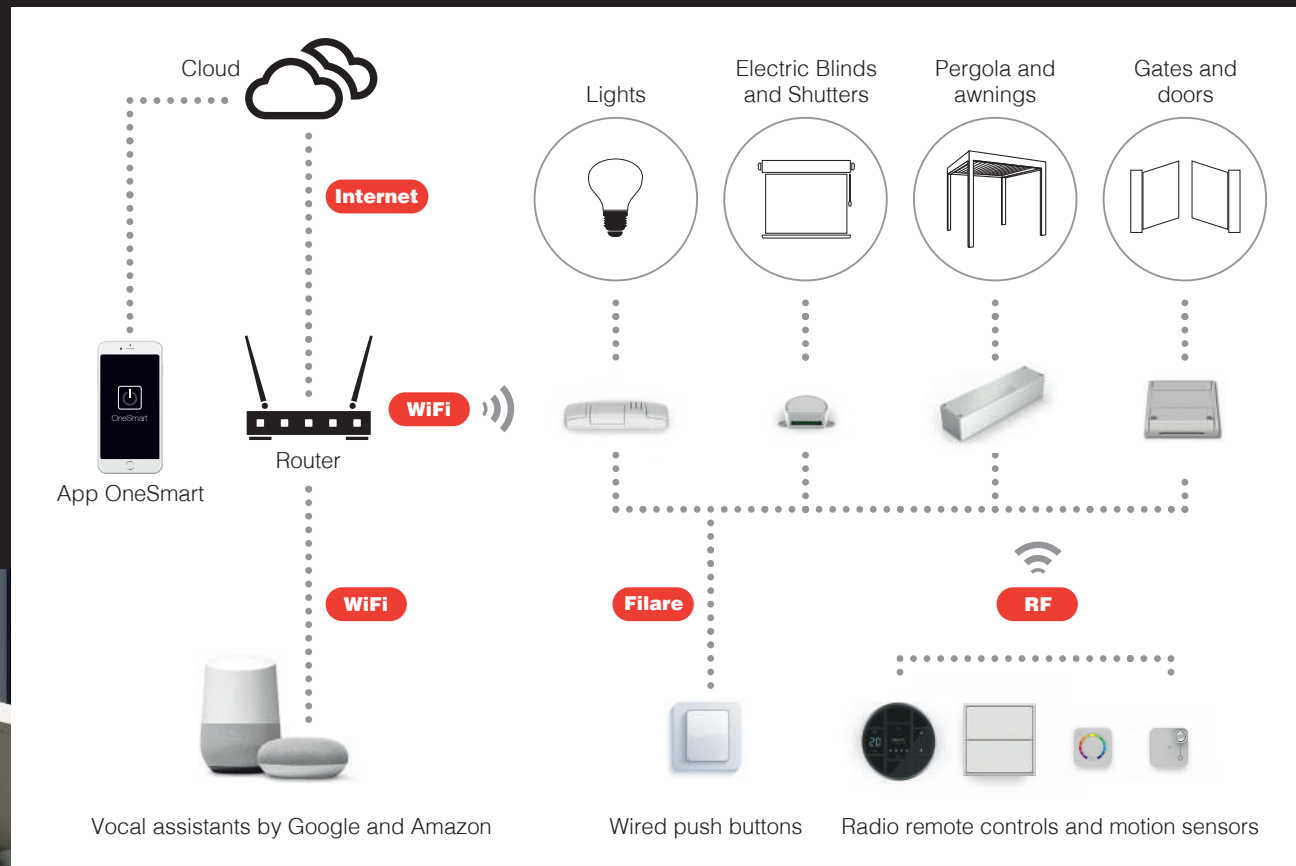

Nexta Tech controllers, in addition to the radio and WiFi command, allow you to keep the existing wired wall buttons and switches.

Always connected

The App OneSmart makes the system intelligent and gives the possibility to control it from anywhere in the world.

Expandable

Adding new Nexta devices is easy and possible at any time through simple set-up.

MCU-L1

Control unit with On/Off or timed function. 110/240Vac power supply. 1 output, max power 1000W (230V). Radio receiver 433.92MHz. Two wired inputs settable with button or switch.

Code	MCU-L1
Power supply	110-240 Vac
Outputs	1 x Max 1000W
Function	Mode 1: On/Off Mode 2: Timed ON
Inputs	1 (N.O. button or switch)
No. Programmable transmitters	30
Radio Frequency	433.920MHz ISM
Protection rating	IP20
Operating Temperatures	-20 +55 °C
Dimensions	52x43x21 mm

MCU-L2

Control unit with On/Off or timed function. 110/240Vac power supply. Two outputs, Max power 500W (230V) each. Radio receiver 433.92MHz. Two wired inputs settable with button or switch.

Code	MCU-L2
Power supply	110-240 Vac
Outputs	2 x Max 500W
Function	Mode 1: ON/OFF Mode 2: Timed ON
Inputs	2 (N.O. button or switch)
No. Programmable transmitters	30
Radio Frequency	433.920MHz ISM
Protection rating	IP20
Operating Temperatures	-20 +55 °C
Dimensions	52x43x21 mm

MCU-L1/ONE

Control unit with On/Off or timed function. 110/240Vac power supply. 1 output, max power 250W (230V). Radio receiver 433.92MHz. Two wired inputs settable with button or switch. Integrated WiFi module to allow the smart remote control by App OneSmart and voice commands.

Code	MCU-L1/ONE
Power supply	110-240 Vac
Outputs	1 x Max 250W
Function	On/Off
Inputs	1 (N.O. button or switch)
No. Programmable transmitters	30
Radio Frequency	433.920MHz ISM
Wireless Smart	WiFi 2,4GHz
Smart remote control	App OneSmart
Voice commands	Google Home, Alexa Amazon
Protection rating	IP20
Operating Temperatures	-20 +55 °C
Dimensions	52x43x21 mm

NEXTA
TECH

MCU-L2/ONE

Control unit with On/Off or timed function. 110/240Vac power supply. 2 outputs, max power 200W (230V). Radio receiver 433.92MHz. Two wired inputs settable with button or switch. Integrated WiFi module to allow the smart remote control by App OneSmart and voice commands.

Code	MCU-L2/ONE
Power supply	110-240 Vac
Outputs	2 x Max 200W
Function	On/Off
Inputs	2 (N.O. button or switch)
No. Programmable transmitters	30
Radio Frequency	433.920MHz ISM
Wireless Smart	WiFi 2,4GHz
Smart remote control	App OneSmart
Voice commands	Google Home, Alexa Amazon
Protection rating	IP20
Operating Temperatures	-20 +55 °C
Dimensions	52x43x21 mm

TOP-L1

Control unit with On/Off function. 110/240Vac power supply. 1 output, max power 2000W (230V). Radio receiver 433.92MHz. One wired input for N.O. switches.

Code	TOP-L1
Power supply	110-240 Vac
Outputs	1 x Max 2000W
Function	On/Off
Inputs	1 switch N.O.
No. Programmable transmitters	30
Radio Frequency	433.920MHz ISM
Protection rating	IP20
Operating Temperatures	-20 +55 °C
Dimensions	174X46X35

TOP-L1/ONE

Control unit with On/Off function. 110/240Vac power supply. 1 output, max power 2000W (230V). Radio receiver 433.92MHz. One wired input for N.O. switches. Integrated WiFi module to allow the smart remote control by App OneSmart and voice commands.

Code	TOP-L1/ONE
Power supply	110-240 Vac
Outputs	1 x Max 2000W
Function	On/Off
Inputs	1 switch N.O.
No. Programmable transmitters	30
Radio Frequency	433.920MHz ISM
Wireless Smart	WiFi 2,4GHz
Smart remote control	App OneSmart
Voice commands	Google Home, Alexa Amazon
Protection rating	IP20

4 LED 12-24 Output

Extender

Power extender unit for Top-V8 and Plano Master. Power supply 12-36 Vdc. 4 outputs for constant voltage LEDs max 8A per output and total max 24A .It's possible to connect up to 10 TOP-V8/4EXT to each Master. Connection between Master and Extender with 6 wires cable and RJ11 connector

Code	TOP-V8/EXT4
Power supply	12-24Vdc
Output	4 x Led 12-24Vdc Max power / output: 8A (96W with 12V, 192W - 24V) Max total power: 24A (288W with 12V, 576W - 24V)
Protection rating	IP20
Working temperature	-20 +55 °C
Dimensions	174x46x35

Voice

Control unit for 230V motor for electric venetian blinds with slats tilt management 110/240Vac power supply. 1 output to manage motors with integrated limit switch with maximum power 500W (230V). Radio receiver 433.92MHz. Two wired inputs. 1 wired input. Integrated WiFi module for remote control by App OneSmart and voice command.

Code	MCX-MVE/ONE
Power supply	110-240 Vac
Output	1 x Max 5300W - 3 wires tubolar motors
Function	Open-stop-close
Input	2 NO push buttons
No. Programmable transmitters	30
Radio frequency	433.920MHz ISM
Wireless Smart	WiFi 2,4GHz
Smart remote control	App OneSmart
Voice commands	Google Home, Alexa Amazon
Protection rating	IP20
Working temperature	-20 +55 °C
Dimensions	52x43x21 mm

AVAILABLE VERSIONS

LB-50/One

Control unit for 24Vdc LEDs, 4 outputs with settable mode for white or single-color LEDs, CCT, RGB and RGBW. 433.92MHz radio receiver. 1 wired input settable as button or switch. Integrated WiFi module for remote control via OneSmart App and voice control. Integrated power supply, max 50W.

LB-DIM50/One

Control unit for 4 single or synchronized Led lights 24V with On-Off-Dimmer function. 433.92MHz radio receiver. 1 wired input settable as button or switch. Integrated WiFi module for remote control via OneSmart App and voice control. Integrated power supply, max 50W.

LB-100/One

Control unit for 24Vdc LEDs, 4 outputs with settable mode for white or single-color LEDs, CCT, RGB and RGBW. 433.92MHz radio receiver. 1 wired input settable as button or switch. Integrated WiFi module for remote control via OneSmart App and voice control. Integrated power supply, max 100W.

LB-DIM100/One

Control unit for 4 single or synchronized Led lights 24V with On-Off-Dimmer function. 433.92MHz radio receiver. 1 wired input settable as button or switch. Integrated WiFi module for remote control via OneSmart App and voice control. Integrated power supply, max 100W.

LB-150/One

Control unit for 24Vdc LEDs, 4 outputs with settable mode for white or single-color LEDs, CCT, RGB and RGBW. 433.92MHz radio receiver. 1 wired input settable as button or switch. Integrated WiFi module for remote control via OneSmart App and voice control. Integrated power supply, max 150W.

LB-DIM150/One

Control unit for 4 single or synchronized Led lights 24V with On-Off-Dimmer function. 433.92MHz radio receiver. 1 wired input settable as button or switch. Integrated WiFi module for remote control via OneSmart App and voice control. Integrated power supply, max 150W.

Table with 3 columns: Code, LB-50 / -100 / -150 /One, LB-DIM50 / 100 / 150/One. Rows include Power supply, Integrated power supply, Load, Settable function, Inputs, No. Prog. transmitters, Radio Frequency, WiFi Frequency, Smart remote control, Voice Control, IP protection, Operating Temperature, Dimensions.

SENSORS

MT-W

Anemometer. Wind speed sensor with wired contact 200mA 100Vdc. Max length connection cable 4m.

MT-R

Wired rain sensor with heating function, power supply 230Vac.

MT-WS

Anemometer and sun sensor. Wind speed sensor with wired contact 200mA 100Vdc and light sensor. Power supply 12-24Vdc.

MT-100

Temperature sensor, cable length 100 cm. In combination with the rain sensor detects ice and snow.

PLANO-LOCK1224

Control unit with dry contact function. 12/24 Vac/dc power supply. 1 output with normally open contact. Radio receiver 433.92MHz.

Code	PLANO-LOCK1224
Power supply	12-24 Vac/dc
Outputs	1 NO contact max 1A (function START) 1 NO contact max 1A (function STOP)
Input	2 programmable inputs with automation status function
Functions	1 Impulse, 1 lock function
Radiotransmitters allowed	30
Radio frequency	433.920 MHz ISM
WiFi frequency	WiFi 2,4GHz
Smart control remotely	App OneSmart
Voice control	Google home - Alexa Amazon
IP level	IP20
Operating temperatures	-20 +55 °C
Dimensions	80x80x16

PLANO-LOCK/ONE

Control unit for gate automation control. Power supply 12-24 Vac/dc. One output with normally open contact for motor control, one output for connection on “stop” input for blocking function. 433.92MHz radio receiver. Integrated WiFi module for remote control via OneSmart App and voice control. Input for limit switch or gates status indicator to check the status of the device

Code	PLANO-LOCK/ONE
Power supply	12-24 Vac/dc
Outputs	1 NO contact max 1A (function START) 1 NO contact max 1A (function STOP)
Input	2 programmable inputs with automation status function
Functions	1 Impulse, 1 lock function
Radiotransmitters allowed	30
Radio frequency	433.920 MHz ISM
WiFi frequency	WiFi 2,4GHz
Smart control remotely	App OneSmart
Voice control	Google home - Alexa Amazon
IP level	IP20
Operating temperatures	-20 +55 °C
Dimensions	80x80x16

Gates and garage doors control

Dry contact wireless interface

PLANO-LOCK2/ONE

Control unit for gate automation control. Power supply 12-24 Vac/dc. Two outputs with normally open contact for motor control. 433.92MHz radio receiver. Integrated WiFi module for remote control via OneSmart App and voice control. Input for limit switch or gates status indicator to check the status of the device

Code	PLANO-LOCK2/ONE
Power supply	12-24 Vac/dc
Outputs	2 NO contact max 1A (Function START)
Input	2 programmable inputs with automation status function
Functions	1 Impulse, 1 lock function
Radiotransmitters allowed	30
Radio frequency	433.920 MHz ISM
WiFi frequency	WiFi 2,4GHz
Smart control remotely	App OneSmart
Voice control	Google home - Alexa Amazon
IP level	IP20
Operating temperatures	-20 +55 °C
Dimensions	80x80x16

SENSA-R35/D

Position sensor (Horizontal/Vertical) for garage doors.

Code	SENSA-R35/D
Power supply	CR2032 battery
Radio frequency	433.920 MHz ISM
IP level	IP20
Dimensions	Diameter 38mm X 17mm

Industrial doors control

3 dry contacts wireless interface (Open/Stop/Close)

PLANO-LOCK3/ONE

Control unit for gate automation control. Power supply 12-24 Vac/dc. Three output with normally open contact for motor control. 433.92MHz radio receiver. Integrated WiFi module for remote control via OneSmart App and voice control. Input for limit switch or gates status indicator to check the status of the device

Code	PLANO-LOCK3/ONE
Power supply	12-24 Vac/dc
Outputs	1 NO contact max 1A (Function OPEN) 1 NO contact max 1A (Function STOP) 1 NO contact max 1A (Function CLOSE)
Input	2 programmable inputs (NO/NC) with automation status function
Functions	1 Impulse, 1 lock function
Radiotransmitters allowed	30
Radio frequency	433.920 MHz ISM
WiFi frequency	WiFi 2,4GHz
Smart control remotely	App OneSmart
Voice control	Google home - Alexa Amazon
IP level	IP20
Operating temperatures	-20 +55 °C

Radio remote controls

Design and functionality for any application

Multifunctional remote control for controlling, singularly or in a group, up to 30 devices. Available in nine versions for a wide range of uses, with keys that are pre-set or can be selected during programming on the electronic control unit, display with 7 segments and 4 LEDs for the selection of channels and groups. Hoblo80 has a very robust design and is easy to use thanks to its aluminium alloy structure, the shock-proof polycarbonate plastic parts, and the magnetic support on the wall.

Dimensions: Diameter 80 mm x h 13 mm. Battery : CR2450. Range: 100 m in free field (40m inside buildings).

MULTIFUNCTION - Remote controls for lights and electric blinds/shutters

HB80-30D
Radio control, rolling code 433.92MHz, 30 channels and 4 groups, On-Off , dimmer up/down, open-close-stop (motor). CR2450 battery.

HB80-2L
Radio control, rolling code 433.92 MHz, 2 channels, On-Off function, dimmer up/down, open-close-stop(motor). CR2450 battery.

HB80-4L
Radio control, rolling code 433.92MHz, 4channels + All, On-Off, dimmer up/down, open-close-stop(motor). CR2450 battery.

Hoblo80

Radio remote controls

DIMMER - Remote controls with dimming functions

HB80-1DIM
Radio control, rolling code 433.92 MHz, 1 channel, On-Off function, dimmer up/down, select intensity, 30%-60%-100%. CR2450 battery.

HB80-4DIM
Radio control, rolling code 433.92MHz, 4channels + All, On-Off , dimmer up/down, select intensity, 30%-60%-100%. CR2450 battery.

RGB/W + CCT - Remote controls with rgb, rgb/w and cct functions

HB80-1C
Radio control, rolling code 433.92 MHz, 1 channel, On-Off function, dimmer up/down, colour control RGB/RGBW and CCT, dynamic cycle control. CR2450 battery.

HB80-4C
Radio control, rolling code 433.92 MHz, 4 channels + All, On-Off, dimmer up/down, colour control RGB/RGBW and CCT, dynamic cycle control. CR2450 battery.

HB80-30RGBW
Radio control, rolling code 433.92 MHz, 30 channels, On-Off, dimmer up/down, colour control RGB/RGBW and CCT, dynamic cycle control, open-close-stop (motor). CR2450 battery.

PROGRAMMABLE

HB80-6G
Radio control, rolling code 433.92 MHz, 6 keys with settable function. CR2450 battery.

PERGOLA

HB80-PRG200
Rolling code 433,92MHz multi-channel radiotransmitter with display for lighting control, electric roof, vertical blinds and heaters control. CR 2450 battery, magnetic wall support.

Hoblo90

Radio remote control touch

Touch experience and cutting-edge design

Multi-channel remote control with capacitive touch technology, ideal for controlling shutters, blinds and dimmable or coloured lights. Combined with Nexta Tech lighting controllers, thanks to the brightness of RGB LEDs, the intensity of the light can easily be dimmed and the shade of colour and temperature of the white light controlled. Supplied with a wall or table support with magnetic contact, Hoblo 90 is equipped with an accelerometer that allows the controller to switch on instantly when picked up or moved.

Dimensions: Diameter 90mm, h 30 mm.
Battery : 2 x AA.
Range: 100m in free field, 40m inside buildings.

Hoblo90

Radio remote control touch

DIMMER + RGB/W + CCT - Portable, table or wall remote control

HB90-LT
Radio control, rolling code 433.92 MHz, 6 channels with settable function for controlling dimmable lights, CCT or RGB/ RGBW lights.

FIXING ON SURFACES
Thanks to the possibility of 180 ° rotation of the front ring, it is possible to fix HB90 on a wall or table. The magnetic support allows a comfortable and elegant attachment.

ON TABLE

ON WALL

Wireless switches

for flexible installations

Wall radiotransmitter available in 7 versions and 2 type of power supply: by battery with surface mounting and by main 230V for recessed electric box. Minimal and posh design for a perfect integration in any environment, it's built with mechanical sturdy push buttons that can be activated pushing any point of their area.

Dimensions: 80 x 80 mm x h 11 mm.
 Battery : CR2450.
 Range: 80 m in open spaces (30m in buildings).

PROGRAMMABLE - Radiotransmitters with selectable function

OPT-2G

Rolling Code 433,92MHz radiotransmitter, 2 buttons with selectable function. Battery CR2450

OPT-2G/PW

230Vac power supply version.

OPT-4G

Rolling Code 433,92MHz radiotransmitter, 4 buttons with selectable function. Battery CR2450

OPT-4G/PW

230Vac power supply version.

OPT-8G

Rolling Code 433,92MHz radiotransmitter, 8 buttons with selectable function. Battery CR2450

OPT-8G/PW

V230Vac power supply version.

DIMMER - Radiotransmitters for light intensity control

OPT-1DIM

Rolling Code 433,92MHz radiotransmitter, 1 channel, functions: On-Off, dimmer up/down, light level selection 25%-50%-75%-100%. Battery CR2450

OPT-4DIM

Rolling Code 433,92MHz radiotransmitter, 4 channels with On-Off, Dimmer up/down (with long pressure). Battery CR2450.

OPT-1DIM/PW

V230Vac power supply version.

OPT-4DIM/PW

230Vac power supply version.

OPT-1DIM/PW

V230Vac power supply version.

RRGB/W + CCT - Radiotransmitters for RGB/W color control and CCT tunable white lights

OPT-1C

Rolling Code 433,92MHz radiotransmitter, 1 channel, functions: On-Off, dimmer up/down, color change RGB/RGBW, color memory, dynamic cycle management. Battery CR2450

OPT-1CCT

Rolling Code 433,92MHz radiotransmitter, 1 channel, functions: On-Off, dimmer up/down, light level selection 25%-75%, CCT tunable white control. Battery CR2450

OPT-1C/PW

230Vac power supply version.

OPT-1CCT/PW

230Vac power supply version.

Touch

Miniaturized radio controls

Touch control

Miniaturized innovative design with numerous command versions for flexible and convenient wireless installations. Its compact size means it can easily be attached to a wall, piece of furniture, window or shelf. The ISM (industrial, scientific and medical) radio frequency band guarantees a long range, even through walls and ceilings. Dimensions: 40X40X10 mm.

DIMMER - Remote controls with dimming functions

TOUCH-1
Radio control, rolling code 433.92 MHz, 1 channel with On-Off, Dimmer function. CR2450 battery..

TOUCH-1L
Radio control, rolling code 433.92MHz, 1 channel with On-Off, dimmer up/down, open-close-stop(motor). CR2450 battery.

TOUCH-1DIM
Radio control, rolling code 433.92MHz, 1 channel with On-Off and dimmer (with touch surround).CR2450 battery.

TOUCH-4DIM
Radio control, rolling code 433.92 MHz, 4 channels with On-Off dimmer function. CR2450 battery.

Touch

Radio control, rolling code 433.92MHz, 4 keys with settable function.CR2450 battery.

TOUCH-LOCK4
Radio control, rolling code 433.92 MHz, 4 keys with settable function. Lock function to prevent unintentional pressing of the keys.CR2450 battery

Pocket-sized remote control

4 buttons portable remote control 433,92 MHz Rolling code. Minimal ultrathin design with 3 color models: dark gra, white and orange. Linea is compatible with all the Nexta tech control units with the possibility to chose the function of each single-button during the pairing procedure. It's also available in the copy version for controlling the existing garage door and gate automations

Dimensions: 36x71x8 mm.
Battery: CR2032
Range: 100 m in open space, 30 m in buildings.

LINEA-4R - Remote controls with programmable functions

LINEA-4R
Radio control, rolling code 433.92MHz, 4 keys with settable function. Grey color. CR2032 batte ry

LINEA-4R/W
Radio control, rolling code 433.92MHz, 4 keys with settable function. White color. CR2032 battery

LINEA-4R/OR
Radio control, rolling code 433.92MHz, 4 keys with settable function. Orange color. CR2032 battery

LINEA-4C - Remote controls with programmable functions and copy system

Radio control, rolling code 433.92MHz, 4 keys with settable function and copy system. Grey color. CR 2032 battery

LINEA-4C/W
Radio control, rolling code 433.92MHz, 4 keys with settable function and copy system. White color. CR 2032 battery

LINEA-4C/OR
Radio control, rolling code 433.92MHz, 4 keys with settable function and copy system. Orange color. CR 2032 battery

TX

RF transmitter modules for wired push buttons

It transforms wired buttons into radio controls:
fast and reliable wireless connection

Recessed remote control, ideal for transforming wired wall buttons into radio controls. The innovative dual power supply, either from the mains or a battery, means it can be installed on wire-controlled units or on pre-existing sensors. The ISM (industrial, scientific and medical) radio frequency band guarantees a long range, even through walls and ceilings.

TX

Recessed remote controls

- MCU-TX4

Radio control, rolling code 433.92 MHz, to transform standard wired buttons into radio controls, 4 channels with settable function. 110-240 Vac power supply or CR2032 battery. Dimensions: 52X43X21 mm.
- MCU-RR

Radio signal repeater Rolling code 433,92MHz. Power supply 230Vac. Dimensions 52X43X21 mm.
- TOUCH-TX2

Radio control, rolling code 433.92 MHz, to transform standard wired buttons into radio controls, 2 channels with settable function. CR2450 battery. Dimensions: 40X40X10 mm.

TYPICAL INSTALLATION

Round

Recessed radiotransmitter

Touch control

Round is the recessed radio remote control with capacitive touch technology, ideal for installation on shelves, bookcases and under cupboards. Simply make a hole with a diameter of 35mm and a depth of 13mm to transform your furniture into an innovative control system.

Touch technology

Central touch push button and capacitive touch wheel for sending commands through the rotative movement Ideal for dimming actions.

ROUND

Recessed remote control

- ROUND-1G

Recessed radio control, rolling code 433.92 MHz, 1 key with settable function. CR2450 battery. Optional surface fixation kit included. Dimensions: D1 35mm - D2 38mm - H14mm

Touch-1SP

Wireless motion sensor

Automatic control

Wireless motion sensor with settable detection distance and light threshold.
Radio control or sensor functions can be activated using the touch keys: sensor activation/deactivation On/Off (press and release) and dimmer (press and hold).
Small size 40x40x10mm, ideal for installation on desks and walk-in closets.

TOUCH-1SP

Code	Touch-1SP
Power supply	Battery CR2450
Battery life	About 3 years
Encoding	Rolling code
Radio frequency	433,92 MHz
Signal range	20 m in buildings
Detection distance	Set from 30 cm to 6 m
Detection angle	cone of 120°
Timing	Set from 1 min to 4 hr.
Brightness threshold	6 different levels
Dimensions	40 mm x 40 mm x 10 mm

Round-1SP

Wireless motion sensor

Automatic control

Wireless motion sensor with adjustable brightness threshold and detection distance selectable. Design made to be recessed. Ideal for installations on wardrobes and furniture containers. Working as a motion sensor and remote control.

ROUND-1SP

Code	Round-1SP
Power supply	Battery CR2450
Battery life	About 3 years
Encoding	Rolling code
Radio frequency	433,92 MHz
Signal range	15 m in buildings
Detection distance	Set from 30 cm to 6 m
Detection angle	cone of 120°
Timing	Set from 1 min to 4 hr.
Brightness threshold	6 different levels
Dimensions	D 38 mm x H 12 mm
Hole installation dimensions	D 35 mm x H 12 mm

Optima-1SP

Wireless motion sensor

Sensor and wall remote control

Motion sensor with 2 levels of lighting and timing for a gradual switch off.
Settable light threshold and detection area, sensor or radiotransmitter function activable through buttons.

- On-Off buttons
 - Dimming buttons
 - Activation - deactivation sensor buttons
- Motion and light sensor

Optima-1SP

Wireless motion sensor

Functional example

A person enters in the area, the sensor switches on the light at 100% (settable level).
When the person leaves the area covered by the sensor, the light intensity remains at 100% for a period of time, t1 (settable time).
After time t1, light intensity falls to 40% (settable value) for a time, t2 (settable time).
An integrated light sensor stops the light from switching on if the ambient light is sufficient (settable threshold).

OPT-1SP - Battery version

Battery version

Code	OPT-1SP
Power supply	Battery CR2450
Battery life	3 years
Code	Rolling code
Radiofrequency	433,92 MHz
Transmission range	20 m in buildings
Detection distance	Settable from 30 cm to 6 m
Angle detection	cone 120°
Switch on timing	Settable from 1 min to 4 hours
Light threshold	Settable on 6 levels
Dimensions	85 x 85 x12
Installation	On the surface

OPT-1SP/PW - 230V version

230V version

Code	OPT-1SP/PW
Power supply	110-230Vac
Code	Rolling code
Radiofrequency	433,92 MHz
Transmission range	433,92 MHz
Detection distance	20 m in buildings
Angle detection	Settable from 30 cm to 6 m
Switch on timing	cone 120°
Light threshold	Settable from 1 min to 4 hours
Dimensions	Settable on 6 levels
Installation	85 x 85 x12
Installazione	with recessed box D60mm

Patented technology

Sensa is the evolution of the sensor for cabinet lighting. It recognizes the movement and the position of the door, it turns on or turns off the light transmitting a wireless signal to the Led driver. Sensa is a registered name and a patented technology. Available in two versions: Edge fixation and 35mm diameter hole fixation.

Sensa / Sensa-R35

Code	Sensa	Sensa-R35
Power supply	Battery CR2450	Battery CR2450
Battery life	3 years	3 years
Code	Rolling code	Rolling code
Radiofrequency	433,92 MHz	433,92 MHz
Transmission range	20 m inside the building	20 m inside the building
Installation type	Door edge	35mm diameter hole or surface
Dimensions	64,8 x38,8 x 9,8 mm	D38 x D34,8 x 15 mm

SENSA - Sensors with door edge installation

SENSA-T
Sensor for units which recognises motion and the position of the door, and switches the light on and off in wireless mode. The light can be activated for a set time. CR2450 battery, RF 433.92MHz.

SENSA-M
Sensor for units which recognises motion and the position of the door, and switches the light on and off in wireless mode. The light can be switched on for a set time, and switched off during closing, with a magnetic contact installed on the fixed part of the compartment. CR2450 battery, RF 433.92MHz.

SENSA-R35 - Sensors with installation on 35mm diameter hole or on the surface

SENSA-R35T
Sensor for units which recognises motion and the position of the door, and switches the light on and off in wireless mode. The light can be activated for a set time. CR2450 battery, RF 433.92MHz

SENSA-R35M
Sensor for units which recognises motion and the position of the door, and switches the light on and off in wireless mode. The light can be switched on for a set time, and switched off during closing, with a magnetic contact installed on the fixed part of the compartment. CR2450 battery, RF 433.92MHz.

MAG - Optional magnets for Sensa-M and Sensa-R35M

MAG153A
Magnet with axial load. Diameter 15mm - height 3mm. Package 10 units

MAG225A
Magnet with axial load. Diameter 22mm - height 5mm. Package 10 units

MAG030D
Magnet with diametrical load. Diameter 10mm - height 30mm. Package 10 units

OneSmart system

Smart Control working by Cloud - WiFi

NEXTA
TECH

Remote control

With OneSmart, you can control devices from anywhere in the world, create scenarios and hourly and weekly programs.

Scenarios

With a simple set up, it's easy to create buttons that send commands to multiple devices simultaneously.

Sunrise - Sunset

It recognizes sunrise and sunset through the geographical set-up. Useful for the automatic switching on and off of external lamps.

Multi-installation system

Up to 50 installations around the world can be controlled using a single interface.

Events notification

You can receive a notification message when an event happens, such as turning on a light.

Weather control

It is possible to set an on, off, or dimming action according to weather conditions.

Scheduling

Hourly and weekly programs for turning on-off lights and dimming. It is possible to set an event at a specific time or in a time slot.

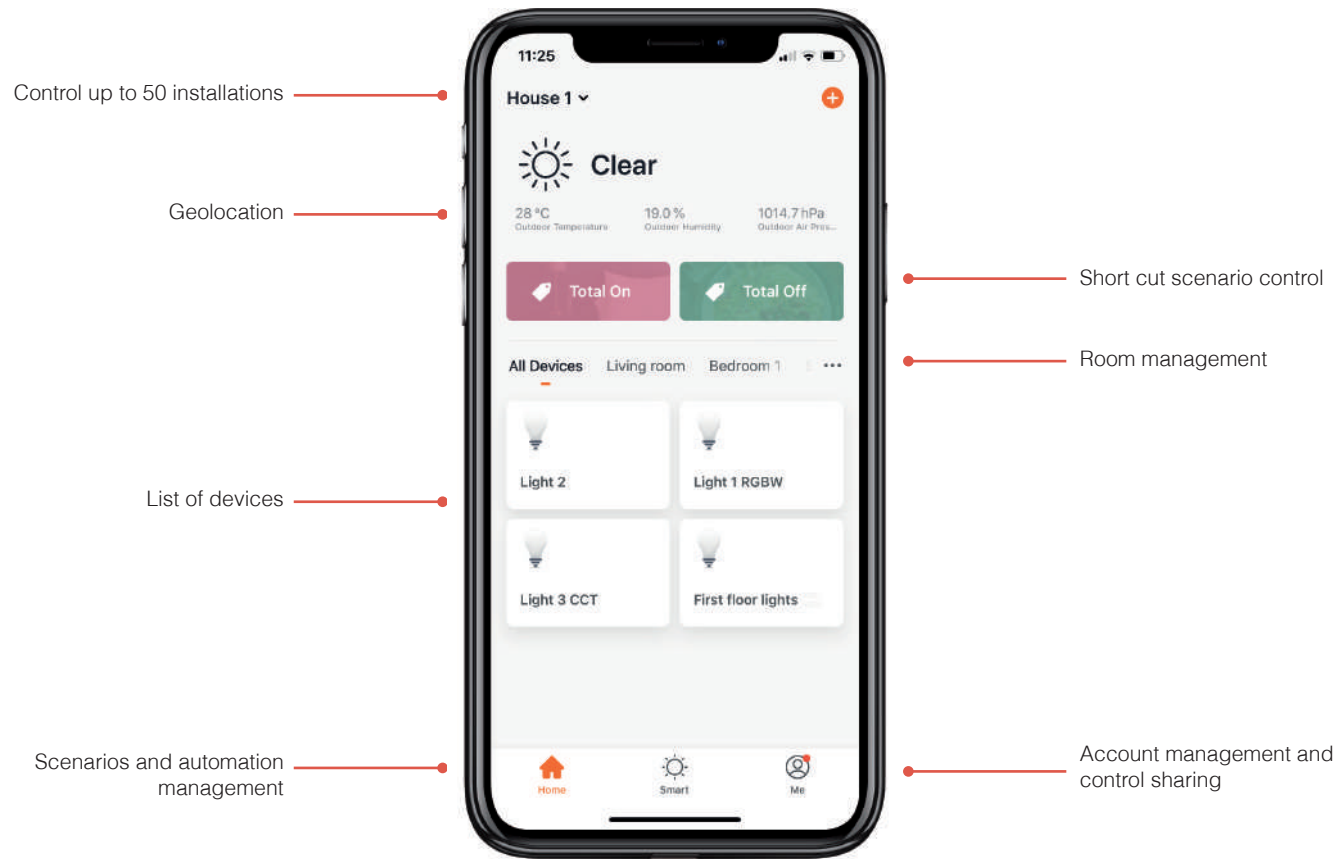

Centralization

It is possible to control single devices or group of devices, it's easy to realize "total on" and "total off" commands.

Simple installation

You don't need to install a gateway, you just need a 2.4 GHz WiFi Internet connection to set up a device in few minutes.

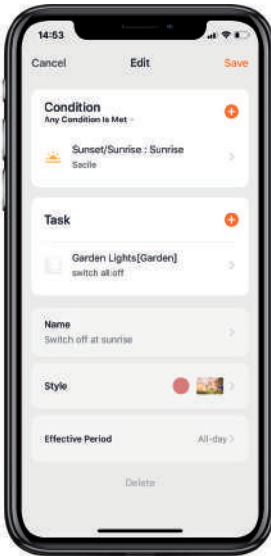

Scenario
One button for one or more action

Automation
Create an event based on a condition

Hourly programmings
Hourly and weekly command plans

One channel On/Off
On/Off.
Timer function.

Four channels On/Off
Control of 4 devices singularly or in groups.
Timer function.

Dimmer
On/Off and dimmer.
Timer function.

CCT
On/Off, dimmer and tunable white control.
Timer function.

RGB o RGBW
On/Off, dimmer and tunable white control. Timer function.
Dynamic cycle management.

Blinds/Rolling shutters
Open/Stop/Close, partial opening .
State monitoring.

Gate automation
Start command, automation lock and state monitoring.

Pergole
Motor control and light dimming

SCENARIO CONTROL

OneSmart Scenarios trigger. Wired-WiFi version

MCU-S2/ONE is the device for launching the scenarios programmed by the App OneSmart. Powered by 230Vac and connectable to any push-button or wired switch of any brand. MCU-S2/ONE allows you to transform up to 2 wall buttons or switches into a WiFi command for launching automations and scenarios like:

- Open and close all the electric blinds/shutters in the house
- Switch on and switch off all the lights in the house
- Open the gate and switch on the garden lights simultaneously
- Switch on groups of lights at the same time at different intensities
- Turn on RGB lights with pre-set different colours

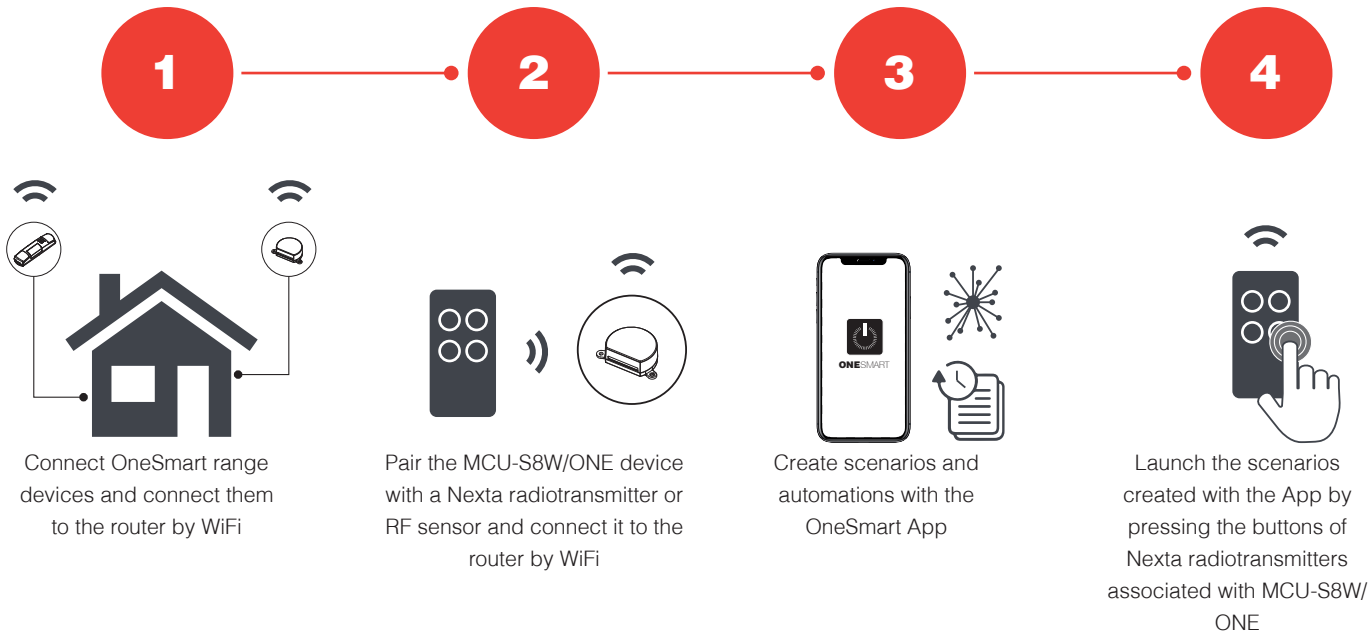

SCENARIO CONTROL

OneSmart Scenarios trigger. RF-WiFi version

MCU-S8W/ONE is the device for launching the scenarios programmed by the App OneSmart. Powered by 230Vac, it can be connected by radio frequency to the Nexta tech radiotransmitters, MCU-S8W/ONE allows to transform up to 8 key-buttons into a WiFi command for launching automations and scenarios like:

- Open and close all the electric blinds/shutters in the house
- Switch on and switch off all the lights in the house
- Open the gate and switch on the garden lights simultaneously
- Switch on groups of lights at the same time at different intensities
- Turn on RGB lights with pre-set different colours

WiFi motion sensors

Smart motion sensors available in recessed or surface mounted versions. Upon detection of movement, it is possible to switch on the light line with direct connection to the sensor or, via WiFi, creating triangulations with other devices of the OneSmart series for timed switching and dimming.

- Activation / deactivation of the sensor
- Detection area set-up
- Brightness threshold set-up
- Activation time set-up

Detection range

Mode 1 – Direct connection

The light line is connected directly to the sensor which switches the load on and off with a relay.

Mode 2 – WiFi Triangulation

The sensor detects the motion and turns on and off the lights connected to other OneSmart devices. In this case it is also possible to decide the intensity of the light when it is switched on or before it is switched off

MOTO-R - Built-in version

Code	MOTO-R
Power Supply	230 Vac
Output	230V max 1200W
WiFi frequency	WiFi 2,4GHz

KIT FOR 12-24 Vdc LED CONTROL

Smart wireless kit for LED lights 12-24Vdc. Composed by one control unit with WiFi and RF receivers, designed for controlling single color, RGB, RGBW or Tunable white CCT LED lights with maximum power 240W (24Vdc on 4 outputs).Wireless command with one pocket-size portable or wall remote control (KIT-ONE-TOUCH version) or with one cutting edge design remote control with magnetic wall support (KIT-ONE-DESIGN version). Smart remote control from wherever you are by App OneSmart and voice commands compatible with Google Home and Amazon Alexa. Easy set up of scenarios for centralized commands and hourly and weekly programs.

Code: Kit-One-Design / Kit-One-Touch

KIT FOR GARDEN LIGHTS AUTOMATION

Smart wireless kit for garden lights. Composed by one control unit with WiFi and RF receivers, designed for controlling four 230V lighting lines with maximum power of 2000W for each output (Max 6000W on 4 output). Wireless command with one pocket-size portable remote control, smart remote control from wherever you are by App OneSmart and voice commands compatible with Google Home and Amazon Alexa. Easy set up of scenarios for centralized commands, hourly and weekly programs and twilight switch function for turning on and off the lights at the sunset and sunrise.

SMART DEVICES COMPATIBLE WITH ONESMART APP

OneSmart compatible

Integrated home automation products

VIDEO CAMERA SMART

CAM-100

IP camera with adjustable bracket, cable with USB connector and 5V - 1A plug power supply, ideal for indoor installations.

CAM-200

IP camera with adjustable bracket and 5V - 1A power supply on IP 67 plastic box, ideal for outdoor installations.

UNIVERSAL INFRARED CONTROLLER

IR-200/ONE

Wireless smart infrared device that allows to control TV, Air Conditioning, fans and any other device that uses Infrared remote control. Thanks to the WiFi technology, through the router connection it's possible to control the devices from anywhere using iOS or Android smartphone and tablet

SMART THERMOSTAT

THEO-100/ONE

Smart thermostat for internal temperature regulation. Management via touch screen panel or smartphone. Connection via WiFi to the OneSmart app.

MAGNETIC DOOR SENSOR

DOM-100/ONE

Magnetic sensor for doors and windows. Battery powered. Connection via WiFi to the OneSmart app to check the status of the contact (open or closed).

extrasonic[®]

SURFACE SOUND SYSTEM

Extrasonic

Surface sound system

SOUND TRANSMISSION THROUGH THE SURFACE
 Extrasonic transforms objects in acoustic speakers through the vibration of the surface. Composed by a bluetooth amplifier and a speaker to fix on the surface, it allows to realize completely invisible audio systems.

- 1** Connection speaker - amplifier and speaker - 12V/20W power supply
- 2** Speaker fixation on surface with adhesive tape or with metal bracket
- 3** Bluetooth connection and sound transmission to the amplifier

4 Sound transmission through the surface

Extrasonic

Surface sound system

SONIC-100
 Sound amplification system through surface composed by:
 1 Bluetooth amplifier 15W, 12Vdc power supply.
 Dimensions: 80 x 80 x 16 mm.
 1 Surface Speaker 15W, 40Ohm. Cable lenght 150 cm.
 Dimensions: Diameter 52mm, h 20mm.

Application
 The quality of the sound depends on the type of surface.
 The maximum dimensions of the transmission surface depend on the material with which the object is constructed.
 The suggested materials are those with alveolar construction like panels MDF, cardboard and wood with which can be reached optimal results until 3 square meters.

ACCESSORIES

PS-1220 Power supply 230Vac-12Vdc, 20W.	PLUG-1220 Plug power supply 230Vac-12Vdc, 20W.	CB-S100/400 Optional connection cable, 400 cm lenght.
